

K-LOVE serves me and my family, as well as our community by providing uplifting and encouraging music as well as information on events that my family enjoys.

If K-LOVE were to be replaced by an LPFM broadcaster, I do not believe that we would have an acceptable alternative for our family to listen to.

I beleive that K-LOVE serves the public interest by giving an uplifting and encouraging alternative to the stations that bring music and commentary that is contrary to our interests and values. I am all in favor of moving forward with new technology (if it is better), but not if it means a loss of choices and options in content.
